Education

- 03/2015-02/2019 PhD in Natural Language Processing, Vrije Universiteit (VU) Amsterdam
- Title: “Identity of Long-tail Entities in Text”
 - Defense ceremony date: 6th of September 2019
 - Computational Lexicology and Terminology Lab (CLTL) / Knowledge Representation & Reasoning (KRR)
 - Promotors: Prof. Piek Vossen (CLTL, VU), Prof. Frank van Harmelen (KRR, VU); co-promotors: Dr. Stefan Schlobach (KRR, VU), Dr. Marieke van Erp (CLTL, VU/KNAW Humanities Cluster)
 - My research focused on multiple aspects of the under-addressed challenge of interpreting identity of long-tail entities in text, namely: description, analysis, evaluation, access to knowledge, and solution systems. It was part of the project [Understanding Language By Machines](#).
- 09/2013-02/2015 MSc in Artificial Intelligence, Vrije Universiteit Amsterdam
- Specialization: Intelligent Systems Design
 - VU Fellowship Program (VUFP) Recipient
 - GPA: 8.4/10.00, Graduated Cum Laude
 - Thesis title: “NED with two-stage coherence optimization – How i am teaching my Ford automobile not to run on 20th century presidential elections in US”
 - Thesis supervisors/advisors: Dr. Marieke van Erp, Dr. Stefan Schlobach, Prof. Piek Vossen, Dr. Wouter Beek
- 09/2009-09/2013 BSc in Computer Science and Engineering, Ss. Cyril and Methodius University, Skopje
- Study Abroad - Vrije Universiteit Amsterdam, The Netherlands (Fall 2012 - Spring 2013, funded by the Erasmus Mundus Euroweb Scholarship)
 - GPA: 9.56/10.00

Work Experience

- 03/2019-present Postdoctoral Researcher, Vrije Universiteit Amsterdam
- Projects: Dutch FrameNet and Clariah; plus teaching and supervision
 - Within the Dutch FrameNet project, I am setting up an infrastructure that supports:
 1. automatic acquisition of paired, multilingual data on events from Wikidata and Wikipedia;
 2. iterative development and evaluation of SRL systems on this data;
 3. development of other resources, including corpora and a Dutch FrameNet.
 - Within the Clariah project, I am developing an entity recognition and linking system for (historical) documents in Dutch. The system is unsupervised, iterative, and based on state-of-the-art embeddings.
 - Employer: Prof. Piek Vossen
- 02/2017-08/2017 Research Visit, Language Technologies Institute, Carnegie Mellon University
- Project: The Profiling Machine - Active Generalization over Knowledge
 - During this visit, I investigated how to build profiling machines that can provide human-like world expectations, implicit in communication and in knowledge bases. For this purpose, two neural architectures were designed (an autoencoder and an embeddings-based model), implemented in Theano, trained on Wikidata, and evaluated against Wikidata entities, human judgments, as well as on a NIL clustering dataset. The resulting paper is currently under review at JWS.
 - Supervisor: Prof. Eduard Hovy
- 11/2014-02/2015 Research Assistant, Vrije Universiteit Amsterdam
- Project: [NewsReader](#)
 - During this period, I developed a contextually adapted Entity Linking module in Python. I also created a streaming architecture for inferring event instances and representing them in RDF format, in the Java programming language.
 - Supervisors: Prof. Piek Vossen, Dr. Marieke van Erp
- 02/2013-10/2014 Junior Software Developer, i-mapping, Amsterdam
- Project: Studio for Geographical visualization of statistical data
 - We developed a full-stack engine for flexible visualization of statistical data on political maps. For comparison of performance, the same functionality was implemented in multiple languages (Python and Node.js), and the data was stored in multiple databases (flat files, MySQL, Redis, Couchbase).
 - Supervisor: Marijn Deurloo
- 07/2011-08/2011 Intern, ATTE, Bitola, Macedonia
- We created a medical information system in PHP, Wordpress, and MySQL.
 - Supervisor: Dr. Aleksandar Stefanovski

Awards and Scholarships

- 09/2016 *Second place at the European Linked Open Data Project contest, Semantics conference*
- Awarded to our tool *LOTUS: A Search Engine for the Web of Data*
- 09/2013-02/2015 *VU Fellowship Programme (VUFP) Scholarship for Academic Excellence*
- VUFP funds (tuition fees + 3k euros/year) the Master's degree studies at Vrije Universiteit Amsterdam for a selection of talented prospective international students.
 - Sponsor: Vrije Universiteit Amsterdam, The Netherlands
 - Years: 2013-2014 and 2014-2015
- 09/2012-06/2013 *Erasmus Mundus Euroweb Scholarship for Student Mobility*
- Erasmus Mundus Euroweb is a scholarship programme for Western Balkans students on undergraduate, master, doctoral, and post-doctoral level who want to study/work in EU countries, and vice versa.
 - Sponsor: European Union
 - Year: 2012-2013
- 09/2010-06/2012 *Best 125 IT students in Macedonia Scholarship*
- This scholarship is awarded to the top 125 IT students in the country with an average GPA of 9.0 or higher.
 - Sponsor: Ministry of Education and Science of Macedonia
 - Years: 2010-2011 and 2011-2012

Publications & talks

JOURNAL

1. (Under review) Filip Ilievski, Eduard Hovy, Piek Vossen, Stefan Schlobach, Qizhe Xie (2019). The Role of Knowledge in Establishing Identity of Long-Tail Entities. Journal of Web Semantics (JWS), Special Issue on Language Technology and Knowledge Graphs. [GitHub1](#), [GitHub2](#), [GitHub3](#).
 - (Earlier, unpublished version) Filip Ilievski, Eduard Hovy, Qizhe Xie, Piek Vossen (2018). [The Profiling Machine: Active Generalization over Knowledge](#). arXiv.

Technical skills

- Daily experience with Python's scientific stack: Scikit-learn, Matplotlib/Seaborn, Notebooks, Networkx, Pandas, Theano, TensorFlow ...
- Some experience with many other languages: Node.js, HTML/Javascript/CSS, C#, Matlab, Java, R, C, C++
- Databases: (My/MS)SQL, Neo4j, Elasticsearch, Redis, Couchbase, MongoDB
- Experience with Semantic web: RDF, SPARQL, LDF, ontologies
- Formats: RDF, XML, JSON, CSV/TSV
- Knowledge of algorithms, machine learning, and neural networks
- Statistics and linear algebra

- Crowdsourcing with Figure Eight
- Linux, Mac OS X
- Unified Modeling Language (UML)

Teaching

2018-2019	Text Mining, Central Bureau for Statistics (CBS) Netherlands, Lab session coordinator. Material .
2018-2019	Knowledge Representation on the Web, Master course, Vrije Universiteit Amsterdam, Guest Lecturer, session “KR and NLP: The curious case of entities”.
2018-2019	Text Mining, Bachelor course, Vrije Universiteit Amsterdam, Lecturer. Material .
2017-2018	Python for Text Analysis, Master course, Vrije Universiteit Amsterdam, Lecturer. Material .
2017-2018	Programming for Humanities and Social Sciences, Bachelor course, Vrije Universiteit Amsterdam, Lecturer.
2017-2018	Digital and Environmental Humanities, Master course, Vrije Universiteit Amsterdam, Lecturer.
2017-2018	Databases, Master course, Rijksuniversiteit Groningen, Guest Lecturer, session “NoSQL Databases”. Slides .
2015-2016	Information processing (Informatieverwerking), Bachelor course, Vrije Universiteit Amsterdam, Lecturer.

Supervision

2019	Jiri Brummer: Comparing various Machine Learning Methods for Element Extraction in Dutch Contracts. MSc thesis, Business Analytics, KPMG and VU Amsterdam. Supervisor.
2019	Guido Jansen: Low Resource Domain Specific Named Entity Recognition. MSc thesis, Information studies, Data science, University of Amsterdam. Second reader.
2018	Arash Parnia: Mathematical Entity Recognition System MERCS. MSc thesis, Artificial Intelligence, VU Amsterdam. Second reader.
2016	Sai Sreewathsa Kovullari: Entity Typing with Page Ranking. MSc thesis, Computer Science, VU Amsterdam. Second reader.

Organizing Committee

COMPETITION

Marten Postma, Filip Ilievski, Piek Vossen (2016). [SemEval-2018 Task: Counting Events and Participants within Highly Ambiguous Data covering a very long tail](#), SemEval-2018 workshop, co-located with NAACL 2018

WORKSHOP

Filip Ilievski, Marten Postma, Piek Vossen (2016). [2nd Spinoza workshop: Looking at the Long Tail](#), Vrije Universiteit Amsterdam

TUTORIAL

Wouter Beek, Javier Fernandez, Paul Groth, Filip Ilievski (2016). [Join the LOD Lab! Scale your Linked Data evaluations to the Web](#), Extended Semantic Web Conference (ESWC) 2016.

Program Committee and Reviewing
